EDUCATION

07.2024: Double engineering degree

Polish-Japanese Academy of Information Technology

(Koszykowa 86, 02-008 Warsaw)

I double specialized in Software & Database Engineering and Multimedia. Both diplomas defended with 5.

- [“How to efficiently connect people online? Implementing a social media platform that fosters software maintainability and collaboration between developers.”](#) (Software & Database Engineering)
- [“Design and implementation of an application dedicated to ADHD people, including strategies for dealing with procrastination, memory and attention management”](#) (Multimedia)
- Won Hackathon DevMuster 2019

PROFESSIONAL SUMMARY

"By the engineering principles, recreating natural [life, intelligence, cognition, ...] leads to understanding of it and may lead to producing artificial one" - self

I graduated from **Computer Science at Polish-Japanese Academy of Information Technology in Warsaw**. Hence, I'm a double computer science engineer with a passion for both traditional software and AI engineering.

I want to build. I love the hands on experience and I am very hopeful that all the emerging tools will positively impact that process.

My experience ranges from IT helpdesk, database administration to Robotic Process Automation developer and consultant. I even had a taste of the so called “People&Culture” department and did a field work as a secret client.

I wish to join a place that nurtures openness and software freedom where I can truthfully strive and ship great products.

I am in favor of mindful acceleration and I hope to see us flourish.

PROJECTS

Cross-platform mobile application dedicated to adults with ADHD - .NET MAUI

[thesis paper](#), [showcase video](#)

- Implementation of my Multimedia Engineering Thesis.
- Focus on Transparency, Collaboration and Portability.
- Application dedicated to ADHD people, including strategies for dealing with procrastination, memory and attention management

Modern Open-Source Social Media Platform - TypeScript/Nodejs/Docker

[thesis paper](#), [showcase video](#)

- Implementation of my Software Engineering Thesis.
- Focus on Transparency, Collaboration and Portability (CRUCIAL ASPECT HENCE REPEATED)
- Software maintainability and collaboration between developers

Language Sentiment in Game Reviews – Python (Streamlit), Docker

[github collaboration](#), [showcase video](#)

- Create and deploy a model which will asses whether a certain review input as a string of characters has positive or negative sentiment.
- Focus on Transparency, Collaboration and Portability.
- Model: In our project we use a simple LSTM. Our data was divided into training set and testing set in the 9:1 proportions. Data is labelled.

Screen Recorder GUI - Python

[github](#)

- Screen Recording: Capture your screen in real-time.
- Mouse Cursor Tracking: Record the movement of the mouse cursor.
- User-Friendly GUI: Intuitive graphical interface for easy operation.
- Elapsed Time Display: Track the duration of your recording.

Hosting websites on Azure - mightdeletelater.lol

[github](#), [website itself](#)

- Create simple website -> push it to github -> deploy to Azure with github actions
- Focus on exploring Azure and GitHub CI/CD possibilities
- Have a mock project to constantly modify and test my skill with cloud

LANGUAGES & CREDENTIALS

Polish: **Native**

English: **English Certificate of CAE (Warsaw, June 2018)**

French: **French Certificate of DELF A2 (Warsaw, February 2016)**

German: **Elementary (A2)**

Microsoft Azure: [Azure Fundamentals \(AZ-900\)](#)

AWS Cloud Quest: [Cloud Practitioner](#)

WORK HISTORY

08.2023-08.2024: *Junior Automation and Robotization Consultant*

Arena Digital JSC – Puławska 180, 02-670 Warsaw

- Created automation scenarios using UiPath and Power Automate software
- Created Bash and Python scripts for automating business processes.
- Worked closely with clients on developing and implementing automation scenarios.
- Assisted in the development of automation strategies and roadmaps.
- Worked closely with internal accounting and HR teams to create automation scenarios concerning employee payouts and tracking of working time.

02.2022-01.2023: *Database Administrator Intern*

EMG Systems LLC – Ogrodowa 23, 05-816 Regulny

- Created BASH scripts and processes for data integration and maintenance using Jenkins
- Administered, supported and monitored POSTGRES databases by proactively resolving database issues and maintaining servers.
- Tested programs and databases to identify issues and make necessary modifications.
- Set up and controlled user profiles and access levels for each database segment to protect important data.

08.2021-10.2021: *HR Intern*

Philip Morris Polska – Warsaw, Poland

- Field work with HR team
- Assisted human resources and public relations teams by scheduling phone screens and on-site interviews with clients to help them with product-related issues database issues and maintaining servers.
- Filed paperwork, sorted and delivered mail, and maintained office organization.
- Developed strong written and verbal communication skills.

09.2020-10.2020: *IT Intern*

Philip Morris Polska – Warsaw, Poland

- Assisted IT team members by crafting project research material for implementation.
- Collaborated to assist support protocol development and offered consultation based on cross-functional knowledge.

- Aided problem resolution measures and suggested patches and hardware, software and network troubleshooting alternatives.
- Contributed to team-based IT projects by lending assessment and management services.

EXTRACURRICULAR ACTIVITIES

Since Junior High School, ***I have been actively seeking growth*** in multiple areas by attending many conferences including Robomicon, SpeedCubing events, Warsaw Information Days and many more.

I have put heavy emphasis on ***developing my skills of software engineering***. I am dedicated to develop and share my knowledge with people by opening my code on github (@imasharc) on a day-to-day basis.

In time period of 2021-2023, I had been an active member of NGOS ***Otwarte Klatki***. I took part in organizing numerous fundraising events such as Veganmania, CARE and other local events. ***I have been actively showcasing my integrity*** by joining Animal Rights marches and protests.
